

## OUR PARTNERS

### SCIERIE CIOLLI

Lorraine region, the sawmill is specialized in the supply of beech sawn timber. 25 000 m<sup>3</sup> of logs per year are transformed at their Beaumont implantation. Edge lumber, unedged lumber, paquet and wood for industrial packaging are their main activities.

### SCIERIE DU RUPT DE MAD

The Sawmill of Rupt de Mad is a localized in the Lorraine region at Bayonville sur Mad. Its primary purpose is the transformation of wood. The Sawmill of Rupt Mad processes 12 000 m<sup>3</sup> of timber per year. Their woods are purchased primarily in sales NFB or in private forest holdings.

### SCIERIE DU CHÊNE DE L'EST

Chene de l'est was founded in 1960. Set up by the father, Mr. Joseph Bach, a carpenter by profession, in a small workshop built by his grandfather. Since its inception the company has remained a family business. At Chêne de l'est only the highest quality oak is used, all the while paying close attention to nature and what it can provide.

# FRENCH LUMBER AND WOOD PRODUCTS IN CHINA

## OUR COMPANY PROFILE

➤ **KNG WOOD** is a direct representative of French Lorraine wood companies in China. Our goal is to promote French hardwood products in China Mainland. The lumber is from eco-certified forests located in the North East of France and includes unedged lumber, selected planks, square-cut, square-edged lumber. Our hardwood species include Oak, Beech, Poplar and Ash.

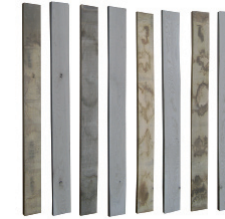

## OUR WOOD ORIGIN

➤ **LORRAINE IS A LARGE REGION** that spans westward from the top of the Vosges mountains. It is the only region in France to share its borders with 3 other European countries (Belgium, Luxembourg and Germany). Lorraine is France's second largest timber producing area. The forest, around 9.8 million hectares, represents 36% of the total region area and produces every year over 3.5 million cubic meters of timber. Long wood culture and good forest management make of Lorraine a world class timber producer in the world.
